The attached Annex is a table illustrating:

- (a) the development of the plan for metallurgical production in East Germany for the year 1953 from the original scheme worked out in 1950 to the last revision in the summer of 1953, and
- (b) the actual production achieved during 1953. The original plan was to produce 60 tons of nickel from native ores during the year but owing to curtailment in investment plans this did not take place.
